REGINALD SANDERS
Assistant Principal

I have had the opportunity to work with Liberty Duke and the Health Hero Immunization Clinic for the past two years. Mrs. Duke and the staff are very professional and easy to work with in getting our schools set up for the flu clinics. We have had a great participation rate for the past two years with our flu clinics. I have been able to see a decrease in the absences due to flu because of the clinics. Mrs. Duke and her staff make the flu clinic as easy as possible for the life of a school nurse; they're very organized and run the clinic in a professional manner. Each clinic we have held has been conducted without any problems.

My only part in the process was getting the word out about the clinic and giving out consent forms to be completed prior to the date of the clinic. Each staff member of Health Hero is very careful to make sure the students that are to receive the flu vaccine have a completed consent form and have no problems prior to being immunized. It has been my pleasure in working with Mrs. Duke and the Health Hero clinic and I look forward in continuing to hold annual flu clinics for our students

I do feel that you would benefit greatly from their services and feel that you will be impressed with their professionalism. If you should have any questions, please feel free to contact me at the number listed above.

Sincerely,

Karen Keel
